Re: Allocations Department, RM-8764, Add 232C3, Wellington,
Co., additional comments.

Mr. Caton,

Please forward these comments to Allocations regarding RM-8764, Add 232C3,
Wellington, Co.

I am interested in adding some important information to the process. Please forward
these comments to the proper place.

Sincerely,

Anthony V. Bono

I would like to add these comments to the proposed addition of channel 232C3 to Wellington, CO. If the channel were allocated to Wellington I suggest adding 229C1, Wellington. The Commission should note that the spacings would be acceptable at N. Lat 41 02 12 W. Long 104 46 06 for a C1 allocation for Wellington, Co providing city grade coverage and service to a wide area. I am sure this is in the public interest and that no parties would be opposed to such a change in that the allocation would be for a larger class, resulting in a facility which would have a large service area than that of the proposed C3 at Wellington.

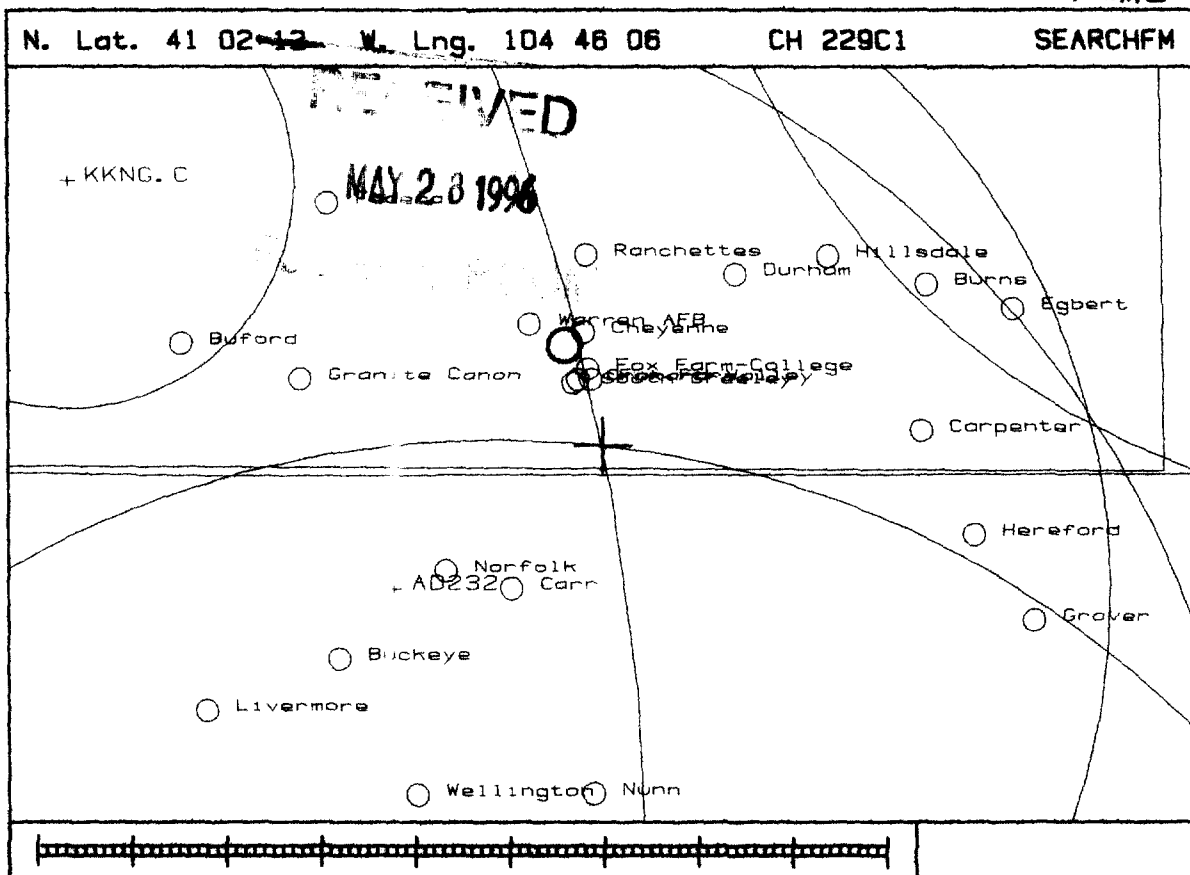

KTCL 227C, Fort Collins has a Construction Permit to move to a new location. Once effectuated this change would enable the proposed allocation at Wellington to be a C1 rather than a C3. This would be possible at channel 229, 93.7 mhz.

I suggest that the Commission, when considering this proposal for Wellington, allocate channel 229C1 to this community rather than 232C3.

I have provided channel works and a potential coverage map as exhibits. I also understand that AD229C1 would require a site restriction. I support the addition of adding a channel to Wellington, Co if it is 229C1 rather than 232C3.
